Dear Ted, That is the way it was. The press will try to spin it to harm you but they don't have a leg to stand on. We are fully documented and so is Bill. On a happier note, So Long Birdie had his second straight five furlong work today and went well. He has not missed a workout and all have come in proper sequence which is important. He works every six days. We go home tomorrow morning at seven a.m. and will be back in Alaska by ten a.m. My best, Bob
